#### Introduction

VictorWealth is registered with the State of California as an investment advisor. VictorWealth provides investment advisory services to a wide range of clients, including managed accounts and other institutional clients. It also provides advisory services to individuals directly and provides advisory services to managed accounts through financial intermediaries.

This CRS is intended to provide retail investors (a natural person or a natural person’s legal representative) with a high-level overview of VictorWealth’s investment advisory services.

This CRS contains references to specific sections of [VictorWealth’s Form ADV Part 2A](#) (collectively, the “Brochures”), where you can find more detailed disclosures about certain of the topics covered in this CRS.

Investment advisory services and fees differ from brokerage services and fees, and it is important for you to understand the differences. Free and simple tools are available to research firms and financial professions at [Investor.gov/CRS](#), which also provides educational materials about investment advisors, broker-dealers, and investing. The boxes below contain “conversation starter” questions you may wish to ask of VictorWealth to better understand its investment advisory services.

#### What Investment Services and Advice Can You Provide Me?

VictorWealth offers a wide range of investment management strategies. Such *strategies are described in Item 8 of each of the Brochures*. You or your financial intermediary, if you are working with one, should select a strategy for your account that is suitable and appropriate for you in light of your investment objectives and personal circumstances. Each of the VictorWealth strategies has a minimum investment amount. *Such minimums are set forth in Item 7 of each of the Brochures*. VictorWealth does not provide recommendations as to which strategy is best for a client. Rather, once a client has hired VictorWealth to manage assets in a specific strategy, either directly or as a subadvisor, VictorWealth has discretion, which means it has the authority to determine the securities that are purchased, sold, and held in client accounts. A client may, subject to limitations, impose restrictions on which securities and the amount of those securities that can be purchased in the client’s account. VictorWealth will select broker/dealers to execute securities transactions in your account. *Please see Item 12 of each of the Brochures for a discussion of trading by each entity.*

VictorWealth generally reviews accounts on a regular basis. *See Item 13 of each of the Brochures.*

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

transactions and tradeaway, prime brokerage, and similar processing charges. *Please see **Item 5 and Item 6** of each of the Brochures for more information.*

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

- Help me understand how these fees and costs might affect my investments. If I give you \$250,000 to invest, how much will go to fees and costs, and how much will be invested for me?
